There is the cost for Superfund to pick up and return it, including all gas/maintenance. However, since it's being used, the lab can't use it so there's a cost -- more like a rental/leasing rate. Let's think about it.

Duane,

I don't really have any idea what to say to this request. The mobe and demob I assume will be superfund's contractor and I don't believe there will be a cost to its daily activities, since I am not sure what that will be. I don't think it has a cost.

Any ideas?

Peter

Hi Peter,

I'm the FSC for the GKM response. Do you have a daily estimated cost for the mobile lab?

Please include mobe and demob in your estimate.

Thanks,

Kathy
